- Designed for installation on corrugated, tiled or flat profile roofs at existing roof angle
- Racking may be easily installed in portrait or landscape orientation
- Manufactured from aluminium anodized for increased corrosion protection
- Rail accepts existing ALZONE clamps and "T" bolts
- Grooved top section allows more positive grip on clamps when tightened
- Foot section is grooved to make alignment and drilling easier
- Internal rib gives exceptional rigidity to rail
- Installation time is reduced as minimal parts, tools & hardware are required
- Profile allows for sufficient drainage, clearance and fitment of cables
- Rail can be easily added to or cut on site
